

BREWSTER SMITH BIO

Brewster Smith has been a performer, a professional musician and songwriter since the age of 12. He spent 15 years running Doggy Day cares in New York City and has been a consultant in the creation of Doggy Daycares internationally. After spending 6 years as President of a series of daycares, his expertise in pack mentality led him to make connections about leadership with both dogs and people. "Working with packs of dogs as an alpha is surprisingly relevant to my work as a coach for people".

Brewster Smith also teaches classes on his findings throughout the city and, in his spare time, enjoys leading groups internationally with Habitat for Humanity with his wife Molly.
